3.0 WHERE WE WORK

We work with the forest dwelling, tribals, rural, pastoral nomadic communities inhabiting areas in and around forest ecosystems. We work across districts of Uttarakhand and Uttar Pradesh part of the lower Shivaliks range, near the Rajaji National Park and Tiger Reserve.

Current Location of Projects - Lower Shivalik range adjacent to Rajaji National Park and Tiger Reserve.

EDLIV SAMANTA FOUNDATION IS A REGISTERED NOT FOR PROFIT UNDER THE COMPANIES ACT 2013.

4.0 WHO WE WORK FOR

Uttarakhand has more than 50% of its areas covered with Forest ecosystems which comprise of National Parks, Tiger Reserves, UNESCO World heritage etc. Tribals, Forest Dwellers, Pastoral nomads, Other Traditional Forest Dwellers and rural populations have been inhabiting these regions for centuries. These communities have formed a unique relationship with the local ecosystems traditionally which is being altered since the last couple of decades. These people face challenges around access, availability, affordability of systemic services, resources, impacts of climate change etc. We aim to work with education as the primary driving force to overcome challenges for these communities.

We started our work in 2018 with - Van Gujjars and Taungyas who have lived for centuries as per the community/forest department records in the forests of the Shivalik and the Himalayan ranges in Uttarakhand, Uttar Pradesh and Himachal Pradesh. Over the last few decades, Van Gujjars like many other transhumance (pastoralist) communities have had to deal with rapid changes – political, economic and social – in the world around; the prolonged systemic inequities and injustices have deprived these communities of their fundamental human rights such as the – Right to access education. Taungyas are classified as a scheduled caste community as per the government records and were settled by the colonial rulers on the periphery of the forest. This was done to enable labour for the forest department in order to implement various activities of the department as per Nusrat (2012).

4.1 LANGUAGE

The Van Gujjar speak ‘Gojri’ which is a mix of Dogri, Punjabi primarily with vocab support from Arbi and Urdu as well. There is no script to write the language and therefore can be recorded in the Devanagari script. The Taungyas speak Hindi (which is a local dialect) among themselves.

4.2 LIFESTYLE & LIVELIHOOD

Van Gujjar are pastoralist who traverse the Shivaliks from - Rajaji National Park in the lower shivaliks - to - Bugyals in the upper reaches of middle himalayas in Uttarkashi, Almora, Sirmaur, Kinnaur in Uttarakhand and Himachal. The general timelines for travel are from April-May to August-September each year.

Taungyas inhabit the forest peripheries and engage with daily wage labour, allied activities of the forest department and create products (ropes) out of forest produce (grass).

4.3 COMMUNITY STATISTICS

(Direct Engagement - Full Time)

Taungya areas - Sodinagar/Bhagwatpur/Kalloyaali (a forest village)

Van Gujjar areas - Mohand, Kalloyaali, Kunja, Kalagarh, Kunao, Gujjar Basti, Chidiyapur

Total no of Household - 300

Total no of Children in School - 150

Total no of Children (Out of School) - 350

Forest School - 3

4.4 CHALLENGES

4.4.1 Education & Health

- Education among the children from the community varies as per location though a substantial set of children from the community have no to poor access to education. The access is also determined by the relative economic well being, sedentarization of the community over the years, and a host of other factors.
- The women from the community have had a history of minimalistic participation in the livelihood engagements of the household. This has had an impact on the – a). relative status of adult literacy (ability to write one's name etc), b). awareness about health, c). opportunities to generate incomes by use of traditional skills – among men and women from the community. The women from the community are well versed in a host of skills learned orally across generations – traditional art, natural resource management, livestock etc. We have formed groups of women and introduced practices to use the traditional skills to acquire economic empowerment as a group. We intend to use this in order to introduce interventions in the areas of health of women and children in particular.

BENGALURU: Tanya Khera can still recall the amazement on her student's face when he first drew with a crayon last week. Tanya teaches in a school at Shivalik range of Greater Himalayas where students are from Van Gujjar community, a nomadic tribe who live six months uphill and the rest of the year in the valley.

The school is run by the forest department, but does not have basic facilities like benches or chalks. If the single teacher is on leave, a forest guard takes charge. Tanya and her friend Prashant Anand run a startup, Samanta Foundation, that teaches in this school.
